

Year-7 48 Hour work: SCIENCE

We hope you are alright and please don't worry about missing work/catching up, we will support you with that when you are back in school.

1. There are 3 wordsearches for you to do – one for Biology, one for Chemistry and one for Physics. Find as many of the words as you can.
2. For any words you don't understand use a dictionary to find out what they mean.
3. For each wordsearch choose 4 words and put them into a short sentence to show you know what they mean. For example:
“A **tissue** is made up from **cells** working together for example in muscle **tissue**.”
