

Inspire, Believe, Support, Achieve

Year 7 TECHNOLOGY

Curriculum intent: Students will be given the opportunity to experience a carousel of different Technology areas including product design, graphic design, food technology and textiles. Each area will allow students to work creatively whilst acquiring a wide range of different practical skills. All projects on offer are designed to inspire imaginative responses and build students' confidence. Our Technology department boasts a wide variety of exciting new technology which our students are able to access through projects and after school workshops.

CONTENT / KNOWLEDGE:

Each subject will offer new opportunities to use the fantastic variety of tools and equipment we have on offer.

- Graphic Design – Drinks packaging design
- Product Design – Mechanical grabber
- Textiles – Creating juggling balls
- Food Technology – Introduction to Food and Nutrition

SKILLS:

- ❖ Working safely with new tools and equipment
- ❖ Understanding different materials and ingredients
- ❖ Using practical skills to bring designs and recipes to life
- ❖ Analysing and evaluating existing products
- ❖ Improving creative thinking and problem-solving skills.
